About Me:

YEAR OF BIRTH:	1985
MARTIAL STATUS:	Single
CITIZENSHIP:	Serbian
SKILLS:	HTML, CSS, JavaScript (jQuery), AJAX, PHP, MySQL, Apache, Unix
CMS	Magento, WordPress, Joomla, Drupal, Typo3
PHP FRAMEWORK:	Codeigniter, Symfony, Zend
VERSION CONTROL:	GIT
MILJAN ALSO KNOWS ABOUT:	Agile development methodologies, User Experience, Node.js, MongoDB, ORM, Angular JS
LANGUAGES:	Serbian (native), English (business fluent)

Professional Work Experience:

Feb 2007 - Sept 2010

JUNIOR WEB PROGRAMMER
AT GALILEJ IT
BELGRADE, SERBIA

Galilej was my first professional step. As a junior web programmer, I worked as a frontend programmer on Joomla and Drupal websites and FLASH presentations. After a year, I became a member of the team which made the first Serbian school information system named GALIS. My main role was to make PHP modules and HTML/CSS templates for the GALIS system.

Sept 2010 - Mar 2012

MAGENTO DEVELOPER
AT YOUNIFY
NIS, SERBIA

As a Magento developer during my work at Younify, I built a lot of Magento templates, Magento custom extensions, B2B and multistore websites, and performed a lot of upgrades from older Magento versions to the newest.

Apr 2012 - Sept 2012

FREELANCE MAGENTO DEVELOPER
AT ELANCE
NIS, SERBIA

After Younify, I started my journey on Elance (www.elance.com/s/miljanio) as a freelancer. During that period I made several Magento websites and extensions for my clients.

Sept 2012 - April 2015

CTO & CO - FOUNDER
AT LEMON SHUTTLE
AMSTERDAM, NETHERLANDS
NIS, SERBIA

Wanting to satisfy the needs of the clients who do not have any knowledge of how to change the content of their sites, I decided to offer a completely new solution. As a result of my ideas and in cooperation with Gaby Leon WanVijk who was the designer on this project, Lemon Shuttle CMS became a reality. Based on Codeigniter PHP Framework with Drag & Drop structure, Lemon Shuttle CMS enabled its users to easily change the content of their sites. On the other hand, its HMVC architecture allows developers to extend the functionality or to add a new one very easy. My duties included complete planning and development.

Sept 2015 - June 2016

LEAD DEVELOPER
AT EMAZZE
BELGRADE, SERBIA

As a lead developer, I was a part of the team who worked on the wholesale platform.
